

Videotaping/Sound recordings of weddings

It is essential that you complete this form

If you do not intend to have a video or sound recording of your wedding, please sign and return this form.

*If you DO intend to have a video or sound recording of your wedding, please read the following notes, sign and return this form, and include payment of the fee with your wedding fees.

The equipment should be set up before the service. The photographer must be as unobtrusive as possible and the filming/recording must not interfere with the service. The photographer must act with the consent of the minister taking the wedding service.

A video or sound recording comes within the Copyright Laws (Copyright and Performers' Protection Acts) and these must be complied with by payment of a fee of £75. If anyone turns up at your wedding unexpectedly with a video or sound recorder, it is your responsibility to tell them that this cannot be used unless the copyright fee is paid. This is an absolute legal requirement and churches are checked up on from time to time. (Please note that the fee does not come to the church.)

**We will / we will not be having our wedding service recorded and/or videotaped*
